ENG Abet takes care
about the environment

ENG It consists of about 70% cellulose
fibres and about 30% thermosetting resins.

Laminate is not classified as dangerous
material and it is not compulsory to issue any
safety data sheet.

The environmental impacts of the
product, along the life cycle from cradle-to-
grave, were calculated through the LCA study
and published through the EPD Print HPL Thin
and Print HPL Compact, certified statement by
the third party.

Given its high calorific value, Print HPL
laminates can be used for energy recovery in
waste-to-energy plants.

For further information, please have a look at
the GoGreen brochure on abetlaminati.com
website.

Certifications

 	<p>ENG Abet Laminati has obtained both the voluntary “Chain of Custody” certifications according to FSC® and PEFC schemes.</p> <hr/> <p>FSC® or PEFC certified products are available on request.</p>
	<p>ENG Abet Laminati is a company with Quality Management Systems and Environment certified according to standards UNI EN ISO 9001:2015 and UNI EN ISO 14001:2015.</p>

  <p>www.epditaly.it</p>	<p>ENG Abet Laminati obtained the EPD (Environmental Product Declaration) publication for Print HPL Thin and PRINT HPL Stratificato.</p> <hr/> <p>Print HPL Thin registration Number: EPDITALY0064 ECO EPD Registration Number: 00000959 CPC 36390 issue date 18 June 2019 validity 17 June 2024</p> <p>Print HPL Compact registration Number: EPDITALY0085 ECO EPD Registration Number: 00001063 CPC 36390 issue date 8 November 2019 validity 8 November 2024</p>
	<p>ENG Indoor Advantage Gold certification assures that building material products support a healthy indoor environment by meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).</p> <p>To be certified, products must be tested by independent labs for compliance with CDPH/EHLB Standard Method 01350 V1-2 for VOC emissions of concerns.</p>
