FRA Abet prend soin
de l'environnement.

ENG Abet takes care
of the environment.

FRA Le stratifié est composé d'environ 70 % de fibres de cellulose et d'environ 30 % de résines thermodurcissables.

Il n'est pas classé comme matériau dangereux et il n'est pas obligatoire de fournir une fiche de données de sécurité.

L'impact environnemental du produit, tout au long de son cycle de vie, a été calculé à travers l'étude LCA et publié dans l'EPD Print HPL Thin et Print HPL Compact, déclaration certifiée par un organisme tiers.

Compte tenu de leur pouvoir calorifique élevé, les stratifiés Print HPL peuvent être utilisés pour la récupération d'énergie dans les usines de valorisation énergétique des déchets.

ENG Laminate is consists of about 70% cellulose fibers and about 30% thermosetting resins.

It is not classified as dangerous material and it is not compulsory to issue any safety data sheet.

The environmental impacts of the product, along the life cycle from cradle-to-gate, were calculated through the LCA study and published through the EPD Print HPL Thin and Print HPL Compact, certified statement by the third party.

Given its high calorific value, Print HPL laminates can be used for energy recovery in waste-to-energy plants.

FRA Abet Laminati s'est toujours souciee d'opérer dans le respect total de la protection de l'environnement. Aujourd'hui encore, Abet Laminati continue d'investir dans une politique d'entreprise orientée vers la réduction de l'impact environnemental tout au long du cycle de vie des produits.

Choisir un stratifié Abet, c'est choisir un produit durable, capable de résister à l'usure et de s'adapter au mieux à tout contexte dans lequel il est placé. Les stratifiés Abet conservent leurs caractéristiques inchangées au fil du temps, c'est pourquoi nous considérons que la fabrication de produits de qualité et durables constitue une contribution importante à la protection de l'environnement. Une large gamme de produits, un vaste choix de décors Made in Italy et des matières premières de haute qualité: telle est la recette d'Abet Laminati pour un produit intemporel.

ENG Abet Laminati has always been concerned about operating in full respect of environmental protection. Even today, Abet Laminati continues to invest in a company policy oriented towards reducing environmental impact along the entire product life cycle.

Choosing an Abet laminate means choosing a long-lasting product, capable of resisting wear and to respond in the best possible way to any context in which it is placed. Abet laminates keep their characteristics unchanged over time, for this reason we consider that an important environmental contribution comes from making quality, durable products. A wide range of products, a large selection of Made in Italy decors and high quality raw materials: this is Abet Laminati's recipe for a timeless product.

FSC® / PEFC

FRA Abet Laminati a obtenu les certifications volontaires « Chain of Custody » (chaîne de contrôle) selon les systèmes FSC® et PEFC. Les produits certifiés FSC® ou PEFC sont disponibles sur demande.

ENG Abet Laminati has obtained both the voluntary "Chain of Custody" certifications according to FSC® C119591 and PEFC 18-32-19 schemes. FSC® or PEFC certified products are available on request.

ISO 9001 / ISO 14001

FRA Abet Laminati est une entreprise dont les systèmes de gestion de la qualité et de l'environnement sont certifiés selon les normes UNI EN ISO 9001:2015 et UNI EN ISO 14001:2015.

ENG Abet Laminati is a company with Quality Management Systems and Environment certified according to standards UNI EN ISO 9001:2015 and UNI EN ISO 14001:2015.

Indoor Advantage™ Gold

FRA La certification Indoor Advantage Gold garantit que les matériaux de construction favorisent un environnement intérieur sain en respectant des limites strictes d'émissions chimiques dans l'air intérieur (IAQ) pour les composés organiques volatils (COV).

Pour être certifiés, les produits doivent être testés par des laboratoires indépendants afin de vérifier leur conformité à la méthode standard CDPH/EHLB 01350 V1-2 pour les émissions de COV pré-occupantes.

ENG Indoor Advantage Gold certification assures that building material products support a healthy indoor environment by meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).

To be certified, products must be tested by independent labs for compliance with CDPH/EHLB Standard Method 01350 V1-2 for VOC emissions of concerns.

Environmental Product Declaration

FRA Abet Laminati a obtenu la publication EPD (Environmental Product Declaration) pour Print HPL Thin et Print HPL Stratificato.

ENG Abet Laminati obtained the EPD (Environmental Product Declaration) publication for Print HPL Thin and Print HPL Stratificato.

FRA Nous vous rappelons que la précision des couleurs imprimées ne peut être que celle permise par le processus d'impression. Nous serons heureux de vous fournir des échantillons et de la documentation spécifiques.

ENG We remind you that accuracy of the printed colours can only be as good as the printing process allows. We will be pleased to supply you with the specific samples and literature.
