

Circ.Letter nr.10 – **New ROCKS and METAL EFFECT**

We are pleased to inform you that, on the occasion of SICAM in Pordenone, the 10 new patterns of the Rocks collection by Abet Laminati will be presented in the Climb, Geo, and Papier finishes.

Furthermore, with the goal of consolidating the offering of our material effect laminate and expanding the options for interior design, some decoratives from the current MEG collection will also be introduced in the **HPL Interior typology**:

- The **MEG 700 décor** will become part of the **Rocks collection**.
- The four **MEG 701, 707, 708, and 709** will be integrated into the **Metal Effect collection**.

Below the table with the specifications and the **surcharges** to the price list:
