

5 February 2025

Circ. nr.3 – Certificates update for building and railways
POLARIS – POLARIS F1
POLARIS CONTEMPORARY - POLARIS CONTEMPORARY F1

We inform you that, as of 2025, **Polaris F1** is confirmed CE-marked from thickness ≥ 10.0 mm, while the range of thickness from 2.0 to 9.0 mm will no longer be CE-marked.

Please note that **Polaris standard** is CE-marked from thickness ≥ 12 mm, while **Polaris Contemporary standard** is CE Marked from thickness ≥ 6.0 mm and **Polaris Contemporary F1** from thickness ≥ 4.0 mm (see the table below)

Please remember that it is necessary to include CE specification in your order, only in case the product is intended for wall or ceiling applications.

Polaris std - DOP n° 7	C-s1,d1 thick. ≥ 12.0 mm
Polaris F1 - DOP n° 8	B-s1,d0 thick. ≥ 10.0 mm
Polaris Contemporary F1 DOP n° 9	B-s1,d0 thick. ≥ 4.0 mm
Polaris Contemporary DOP n° 10	C-s1,d0 thick. ≥ 6.0 mm

Therefore, in the reserved area of the website abetlaminati.com, under the CE certification section, you will find the CE Certificates that can be provided to customers upon request, while the related DOP can be downloaded from the website. The “CE chart of fire classification” is in the reserved area, **for Abet Staff only**.

We also inform you that starting from 2025, Polaris F1 with a thickness of 12 mm is no longer certified for the railways sector according to the European EN 45545-2, while **Polaris Contemporary F1** is certified as follows:

Polaris Contemporary F1	thick. 0.8 mm - glued on non-combustible substrate with two-component polyurethane adhesive	Classification HL1 - HL2 Requirements R1
Polaris Contemporary F1	thick. 3 mm – without substrate	Classification HL1 - HL2 Requirements R1
Polaris Contemporary std	NOT CERTIFIED	
Polaris std e Polaris F1	NOT CERTIFIED	

In the reserved area of the website, you will find attestations that can be distributed to customers, as well as the updated chart of main certification **for Abet Staff only**.

For any further info, please contact your Sales Representative.
